### DETAILED ACTION

#### *Drawings*

The drawings were received on 10-21-04. These drawings are approved by the Examiner.

#### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2, 8, 135, 136 and 138-141 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Over/Under 13 Blackjack.

The reference presents a card game where the player places bets on whether the first two cards in a game of Blackjack sum higher or lower to 13 and wins or loses accordingly to the pay tables given. This game meets the limitations found within the above identified claims.

#### *Claim Rejections - 35 USC § 103*

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

Art Unit: 3713

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 3-7, 9, 10, 19, 20, and 137 are rejected under 35 U.S.C. 103(a) as being unpatentable over Over/Under 13 in view of Scarne's teaching of the Casino Side Game known as Under and Over Seven.

Scarne teaches that the genus game of OVER and UNDER has been long going on strong where carnival hustlers are found. Scarne teaches the number chosen as the over/under number and the payout are designed to favorably heavy the house. Therefore, because casinos are in the business to make a profit off the patrons, absent a showing of criticality to a particular over/under number and payouts thereto, it would have been

Art Unit: 3713

obvious to one of ordinary skill in the casino and gaming arts to choose which number, the manner of generating the numbers, e.g. dice, tiles and/or cards and the payout thereto as a means to generate a profitable game within the gaming arts.

***Response to Arguments***

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

Moreover, if the Applicant wishes more weight given to communal cards, then the Applicant needs to claim more than one player playing the game, because the independent claims only require the Examiner provide a reference that can be played with "at least one" player and a solo game meets that limitation and in a solo game the communal cards are the player's cards.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS

Art Unit: 3713

of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
